

## **PALLETECH**

### **What is PALLETECH?**

The PALLETECH System is exclusive to Mazak and brings advanced, pre-engineered automation to today's machining environments. It is a Multi-Tasking solution for any manufacturing or volume requirement, and is compatible with all of our horizontal machining centers and most of our vertical and 5-axis machining centers.

With our PALLETECH Manufacturing Cell controller software over standard PCs and networks, shop management can monitor operations, view and change schedules on-the-fly, manage part program files from anywhere on the network, track tool life/breakage and issue instructions to the shop floor. Users are able to interrupt a planned machining queue and produce an emergency part with no cost penalty.
